

DeWolf & Co. Crank Up Pressure on HitList

(March 3,2010)

As we work our way through 2010, the DeWolf regime's continuing comedy of errors has added fuel to its sense of desperation. As they had previously promised, the regime has stepped up its campaign to destroy and discredit those of us whom they feel pose a threat to their ability to "bamboozle" the people of the US Virgin Islands into giving them a second term. How ironic that, to date, this is the only promise this regime has honored? DMS has received a report from our roving reporters that the DeWolf regime is attempting to tighten the screws on 2 more individuals on their hitlist.

A sinister plot to destroy Senator Adlah "Foncie" Donastorg's political career has been uncovered. Donastorg is the candidate most likely to defeat DeWolf in the 2010 Democratic gubernatorial primary. DeWolf insiders are reporting a well-organized conspiracy headed by DeWolf, Agent 116 and L. Commissioning to have a young lady file accusations of kidnapping and sexual abuse against the Senator. Our roving reporter has indicated she heard tapes, recorded by the Senator, implicating DeWolf and L. Commissioning. Agent 116's role was to escort the lady to file the Domestic charges against the Senator. Our reporter also indicated that the young lady could be heard on the tapes apologizing to the Senator, stating that the money offered was too much for her to refuse. DMS has learned

that the report was filed in St Thomas, but Agent 116 transferred the file to the “big island”. DMS will keep you posted.

DMS has also learned that Chief of Mischief from Senator “Common Sense” office has been making the rounds on St Thomas, offering huge sums of money to anyone willing to give statements that Lawrence “Recon” Olive sold them license plates, driver’s licenses, or assisted them in illegally registering their vehicle. This Chief of Mischief has been overheard offering \$2,000 to a taxi driver to make a false claim against “Recon”. As it turns out, this Chief of Mischief is no model citizen himself.

Our cadre of document canines has been dispatched. Stay Tuned. We expect them to report back to us in short order. We’ll update you as soon as the documents are in hand.
