Ethics Hearing Set for “Pothead” Lee

Demmansay’s roving reporter just stumbled across a Notice of a hearing set for next week for pothead Attorney Lee Rohn. According to the files reviewed by demmansay.com’s roving reporter, a Federal Judge named Savage has put together a committee comprised of attorneys from Washington, D.C. and Philadelphia to hear ethical complaints against fugitive Attorney Lee Rohn.

According to a proposed schedule, a long list of the fugitive’s present and former colleagues is expected to be deposed.

Justifiably so, Judge Savage has lost all faith in the Ethics Committee of the Virgin Islands Bar Association.

Among some of the violations now coming to light, Attorney Rohn ripped off Avis Car Rental by making false claim that she was injured when a tourist operating one of Avis’s cars struck her vehicle. In fact, the Fugitive’s empty car was parked in the middle of the street out by Coakley Bay when it was struck. Rohn’s claim that she was in the vehicle and was injured was a boldfaced lie.
