

Golden's Faded Dream

(June 7, 2010)

What a busy week it was for demmansay's roving reporter. Besides attending their children graduations from various schools on the big island, demmansay's roving reporter attended an EDC Beneficiary fund raiser for the DeWolf campaign at Tuto Bene Restaurant. Demmansay must congratulate the DeWolf decorating committee. Excellent job, Ada! The following day demmansay's reporter took a tour out East with a couple of Golden's lenders. No, David "The Perv" Jones was not allowed to accompany us, although he protested that he should be allowed to come along, as part of justifying his \$90,000-plus contract with PFA (Political Financing Apparatus). During the tour, Demmansay learned that Golden's dream of building a hotel is just that, a dream. It will NEVER become a reality. The day after the tour, demmansay's roving reporter overheard several Senators discussing how they can now convince Dewolf to give the \$40 Million dollars to Jermaine Jackson and his comrade hotel. We are putting you Senators on notice: demmansay is aware of your plans and that hotel is in no better position than Golden's unfinanced dream. Give the money to WAPA to be used towards lowering our electrical and/or water bills.
