

UVI's Hall Receives Pre-Wootoop Bonus

(September 17, 2011)

DemMansay. Com has learned University of the Virgin Islands President David Hall recently received a \$10,000 bonus. Sources indicate that the bonus, part of his lucrative compensation package, resulted from increased enrollment and increased in employee morale. Hall, who has established himself as a true people person and a good leader, has the support of most of UVI's employees. Congratulations ! Dr. Hall.

Since earning his bonus, enrollment at the University has decreased (probably a result of the DeWolf administration's economic mess) and UVI employees have been sacked with the DeWolf/Dowe 8% salary reduction. Somehow, we don't foresee a repeat of this bonus, next year. So Dr. Hall, don't spend it all in one place.
