

Jackass of the Week March 7th thru 13th 2010

This week's honoree is none other than Agent 116, ***Wilson J. Campbell*** of the Virgin Islands Department of Just Us, for his role in the handling of the Domestic Violence Allegations levied against Senator Adlah "Foncie" Donastorg, Jr. All indications are that the alleged complainant has recanted her story multiple times, and has been recorded stating that she was offered in excess of \$100,000 to make the allegations. For what reason other than to effect political destruction would the Department of Just Us continue to pursue this matter, if the complainant has recanted her story and there are no eyewitnesses to the events other than the accuser and the accused? To utilize the judicial system to further the administration's political agenda, further deteriorates the public's confidence in our third branch of government – not a good idea given the rise in what appears to be "street justice" and vigilantism.

By the way, we find it highly ironic that Agent 116 would be aggressively going after Donastorg when he himself ABRUPTLY abandoned his employ as an Assistant Attorney General at the VI Department of Just Us, and high-tailed it to the states after holding his then-girlfriend at gunpoint during a incident of domestic violence. As can only happen in the Virgin Islands, one gets a promotion and the other gets prosecution. Is it Justice or Just Us?

Inquiring minds want to know what was to be the funding source of this payment? Was this to be paid from the same Lottery slush fund that pays for "Touching Wives" radio show & the First Lady's travels to Rwanda? Was this to be paid from the same Political Financing Apparatus (PFA) account that pays "Touching Wives" and David "Hide your underage daughter" Jones over \$90,000 annually? Was this to be paid from the contract to build the Tutu Library, which we were informed is overpriced to cover payment to Balbo Construction for work done INSIDE of the residence at 23-8 & 23-9 Estate Mafolie? Perhaps it's none of the preceding, but some other slush fund that we have not discovered yet.
