

Jackass of the Week Nov 1, 2010 thru Nov 7, 2010

This week's prestigious award goes to DeWolf / Franco 2010 Campaign Point-man Robert O'Connor. As the reality of their inevitable defeat on November 2nd sets in, desperation has run amuck through the DeWolf/Franco organization and hysteria and paranoia have become their dominant state of mind. How asinine of O'Connor to publicly allege that Kenneth Mapp was responsible for the recent job action taken by employees of the Virgin Islands Port Authority? O'Connor, are you guys for real? You continue to error by thinking the majority of people in the Virgin Islands have consumed the DeWolf/Franco "schupid bush" tea, rendering them disconnected from reality. It's a crying shame to know that among all the public funds that were squandered and misdirected by the DeWolf/Franco administration, none were spent on hiring a therapist to treat you people and your COMPULSIVE LYING disorder.

You people lied about MafolieGate, until 1500 pages of documents were submitted to show that what DeWolf denied, did take place. You continue to lie about the amount of net cover-over revenues the VI Government will receive from the Diageo catastrophe. DeWolf continues to lie about 4 hotel projects for St Croix being approved. DeWolf lied about Mrs. DeWolf not receiving government funds for her Rwanda project, until demmansay.com published a letter and checks to prove otherwise. Now, you guys want people to believe Ken Mapp was responsible for the VIPA employees' job action? Jokes... Well, let us get one step ahead of you. Performing a Credibility Trend Analysis of DeWolf/Franco and the rest of your wolverine den, we were able to predict what your next Press Release would be. We will do you the honors and run the headline if you so desire. We predict your next headline will read:

***"Ken Mapp Responsible for Idiot A.G. Frazer's
Child Support Issues"***

Why not? If you are so caught up in the effort to preserve the current regime that you could blame Mapp for the VIPA mess, why not put Idiot AG Frazer's refusal to support his daughter on Mapp also. Reality check: DeWolf, not Mapp, is the incumbent Governor – responsible for the negotiation of personnel contracts. John DeWolf, not Ken Mapp, is the one whose administration failed to resolve those employees' issues. Since you're in the FINAL DAYS, with the walls crumbling around you, as you feel the Earth tremble under you, and these days are going down in VI history as DeWolf's last stand here's one more lie to go with the many that this administration has told. Issue a press release stating that Idiot AG Frazer had been paying the child support money to Ken Mapp each month, and Mapp was supposed to deliver the checks to the child's mother. However, there was miscommunication between you, Idiot Frazer, and Mapp. As a result Mapp mailed the checks, instead of delivering them personally. You accidentally gave Mapp the wrong zip code and all the checks ended up in the Falkland Islands. Furthermore, state that you have no more checks left in your checkbook, so you have worked with some friends at the State department and arrangements have been made for a special US envoy to go to the Falklands to retrieve the checks. Wrap up by saying Your State Department contacts have assured you that the checks will be back on US soil in 6 months.

A word to the wise, instead of having Jerris *"My wife and I didn't cry at the sentencing cause we know we would be begging DeWolf for a pardon"* Brown, and VI Destroy Hope run all these negative ads against Ken Mapp; that time would be better spent shredding documents and evidence so that you people may buy enough time to make it halfway around the world before the transition team arrives and uncovers evidence to convict and lock your thieving asses up.

Robert O'Connor: You are this Week's Jackass of the Week. Congrats!!!
