

Rohn Plans Lawsuit Against DemMansay.com & Others

Lee Rohn

One of Demmansay.com's roving reporters has informed us that Attorney Lee Rohn met with an Assistant Attorney General on St. Croix this past Friday to discuss her upcoming plea deal. Here are the two main demands by the Government:

- 1) Rohn MUST distance herself from "Foncie" Donastorg
- 2) Rohn must file a lawsuit against demmansay.com, cruciansinfocus.com , Attorney Jeffrey Moorehead, Edwin Callwood, Adelbert "Bert" Bryan, Michael Springer, Dwane Callwood, and Lawrence "Recon" Olive

Well Attorney Rohn, be our guest. BRING IT ON!!! It will be interesting to see what you are going to sue us for. We sure as hell didn't put the marijuana in your bag that was discovered by federal agents, as you went through airport security. We didn't smuggle you out of your hotel room in Santo Domingo just as local law enforcement authorities were about to execute a raid your room. We didn't hire the pilot that smuggled you out of that country after you left your lover in the hotel room, with the drugs. We weren't the ones that filed a sleuth of motions and appeals causing this matter to drag on for all these years. It was the **ASS**istant Attorney General, not any of the parties you intend to sue, who filed the motion to have you plea on a non-calendar day. None of the named parties played a role in the preferential treatment you received from the day you were caught going through airport security with marijuana and allowed to post \$500 cash and continue about your business. It is the Idiot Attorney General, not any of the

named parties, that refuses to extend that same courtesy to people living in Savan, Grove Place, Tutu, or Pearson Gardens. It was DeWolf and yourself that worked out your plea deal that will allow you to be the only convict in the Virgin Islands permitted to carry a license firearm. So we are anxious to see what creative claim you will come up with.

Meanwhile, since you are willing to submit yourself to carrying out the dirty deeds of this “thin-skinned” Governor and his wimpy **ASS**istants, go right ahead. We will dig into our files of materials not yet published, and pull out the goods on you. We have approximately 30 days worth of daily headlines on you. All you have to do is Start on us, and we will FINISH you off. Wow, the thought of deposing you and your partners has us excited. Remember to notify your insurance company because we will file a lawsuit of our own naming your firm, as well as your partners in their individual capacities, as parties. Heaven help the judiciary if your lawsuit is assigned to a Judge before the lawsuit filed by “Recon” against DeWolf & his gang, that has in pending in Superior Court for months without a Judge assigned.

By the way, we are anxious to see if the Court will require you to submit to a drug test prior to sentencing, and random testing throughout your probationary period as is always the case with the young offenders that live throughout our various housing communities. Bet you can't pass a piss test. What happened to the Ethics Committee of the Virgin Islands Bar Association? Are they no longer functioning? It's funny the way they were ready to toss Judge Leon Kendall to the wolves, for merely leveling the scales of Justice for common folks. Where the hell are they now? Their silence on this matter is deafening. Just be aware, that we

are watching carefully, and ALL parties and co-conspirators to this madness will find themselves front and center on our radar.
